Child Observation and Assessment	<p>LifeCubby portfolios are robust as teachers include evidence or observations to document the child's growth. Anecdotal notes and evidences of what the child has learned, how the child thinks, and how the child interacts, as well as assessment data, goals, and artifacts of the child's work are included in LifeCubby child portfolios. Parents have access to their child's portfolio, and content can be created for and shared with parents as frequently as needed.</p> <p>LifeCubby offers ongoing, age-appropriate assessments. LifeCubby offers 18 comprehensive methods of formal assessment.</p>
Planning and Curriculum	LifeCubby's Lesson Planning tool can be customized to fit any curriculum. LifeCubby's Lesson Plan Tool allows Teachers to pull in assessment data and tailor lessons to individual student needs across all developmental goals.
